

CENTURY DESIGN INC.

CE COMPLIANT

CD-6076 CONVEYOR OUTFEED UNIT

FROM CONCEPT TO COMPLETION

Highlights

- Designed to remove parts from all of Century Design's blank and mandrel processing machines and deposit them into a storage/transportation bin.
- Simple continuous-running design. Permits installation, operation and maintenance by low-skill technicians.
- Draws its electrical power requirements from the machine it is feeding - no external connections required.
- Simple electrically-driven conveyor belt design.
- Adjustable mechanical "kick-out" for dumping parts onto bins.
- Includes stand for use with Endural plastic storage transportation bins.
- Drip channel for processing wet parts.
- Part Length: Up to 59 inches (1,500mm)
- Part Diameter: Same as machine it is unloading
- Feed Rate: 1 ft/sec (300mm/sec)
