

CENTURY DESIGN INC.

CE COMPLIANT

CD-6820 Auto-Micrometer Module

FROM CONCEPT TO COMPLETION

Highlights

- Checks diameter of golf shaft or blank at two points simultaneously
- Dual Sony digital, programmable micrometers, accurate to ± 0.0002 inches, with programmable upper and lower accept/reject limits
- Shafts that are within tolerance at both inspection points are passed through for further processing; shafts that are outside the tolerance band at either inspection point are removed from the production flow
- Operating speed: approximately 305 seconds per shaft, or 17 shafts per minute
- Can be operated in 100% inspection mode, or sampling down to 1%
- Accepts parts directly from many Century Design automated feeders and process machines
- Output signals available to activate alarms or shut down production equipment
- RS-232C data port for connection to Statistical Process control monitoring systems
