

**CENTURY DESIGN INC.**

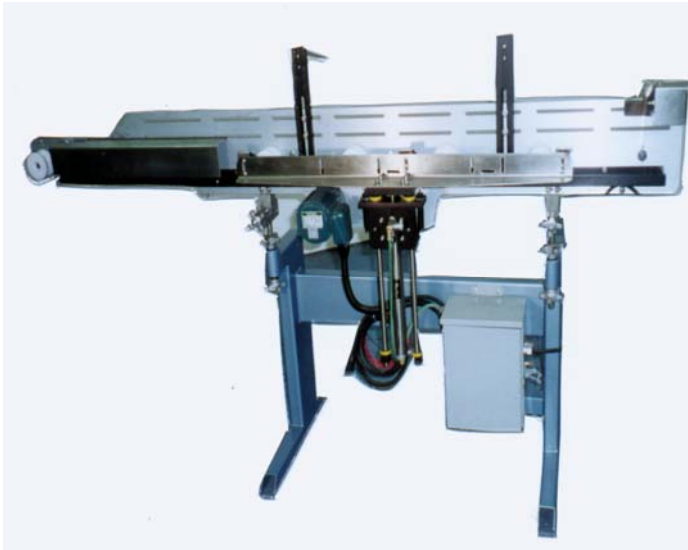

**CE COMPLIANT**

## **CD-6870 Vertical Transfer Unit**

*FROM CONCEPT TO COMPLETION*

### **Highlights**

- Designed to remove parts from all of Century Design's blank and mandrel processing machines and deposit them into a CD-6450 Infeed Module. Permits partial operation of complex automated processing lines during machine maintenance or product rework cycles.
- Simple continuous-running design. Permits installation, operation and maintenance by low-skill technicians.
- Draws air and electrical power from the machine it is unloading-no separate external connections are required.
- Simple electrically-driven conveyor wheel design.
- Electrically controlled air-powered lift mechanism.
- Adjustable part length and lift height.
- Drip channel for processing wet parts.
- Part length-up to 59 inches (1,500 mm), Part diameter-Same as machine it is unloading, Feed Rate-1 ft/sec (300 mm/sec)
