## M-2200B Shrink Tape Remover

*FROM CONCEPT TO COMPLETION*

### Highlights

- Removes cellophane, nylon, pva, and polypropylene shrink tapes from tubular parts quickly and efficiently, without damaging the part surface.
- Uses specially constructed flap/abrasive wheels, combined with high pressure ionized air jets to strip and blast away most shrink films.
- Shrink film residue is removed by vacuum ports connected to your central system.
- An alternate high pressure water jet blast system available for hard-to-remove films.
- Centerless drive feed-through system.
- Variable spindle speeds and feed rates.
- Compatible with CDI's Model No. CD-6450 Auto-Feed Module.
- Capacities:
  - Diameter- 2 inches (50 mm)
  - Length- infinite
  - Throughput rate- 1 ft (300 mm) per second.
