CE COMPLIANT

M-920 Advanced Rolling Table

FROM CONCEPT TO COMPLETION

Highlights

- ◆ Precise electric drive system offers unmatched versatility and consistency
- ◆ Roll speed can be adjusted on operator panel
- ◆ Automatic acceleration and deceleration of lower platen
- ◆ Lower flexible platen, with variable pressure
- ◆ Permits rolling of multiple tapers & highly-tapered shapes
- ◆ Eliminates need for shims and build-ups
- ◆ Lower Platen is free to rotate and move transversely to ensure no damage to the material
- ◆ Upper Platen automatically follows tapers
- ◆ Reduces stress on prepreg during rolling
- ◆ Heated lower platen for optimum prepreg handling as well as maximizing material tackiness
- ◆ Fully adjustable Rolling speed, pressure and stroke length
- ◆ Standard Lengths: (6 ft through 20 ft), or build to suit
- ◆ Production speeds faster than 8 seconds per cycle
- ◆ Built in safety interlocks
- ◆ Can be supplied in any voltage
